

## Memory Verse

Genesis 1:27

So God created man in his own image,  
in the image of God he created him;  
male and female he created them.

Unit playlist

## Today's Scripture

Psalms 148

### Central Truth

Everything God made—like the sun,  
moon, animals, and people—  
can praise Him! And I can praise  
God, too!

## Activity

On the way home or at bedtime, look  
around the room or outside and ask  
your child: **“What is one thing God  
made that can praise Him?”**  
Help them name something (sun, dog,  
trees, people) and say together: **“Thank  
You, God, for making \_\_\_!”**

## Talking point

Today we learned that God made the whole  
world—the sun, moon, stars, animals, and  
people—and everything He made can  
praise Him. Jesus came to fix what sin  
broke so we can love and praise God, too.

## Memory Verse

Genesis 1:27

So God created man in his own image,  
in the image of God he created him;  
male and female he created them.

Unit playlist

## Today's Scripture

Psalms 148

### Central Truth

YOUNGER KIDS (K5-2ND GRADE): God made everything to praise Him—and I can too!

OLDER KIDS (3RD-5TH GRADE): God made everything to praise Him—and I can too!

## Activity

Choose one thing at home (a pet, a plant, the sky, a favorite item) and answer this together: “How does this remind us that God made everything to praise Him?”

Then each family member shares one way they can praise God this week (being kind, singing, obeying, thanking Him, telling others about Him).

## Talking point

Today we learned that all creation was made to praise God. Because of sin, people stopped worshiping Him the way they were created to. But Jesus came to forgive us and restore us so we can live for God's glory again. When we praise God—through our words, choices, and attitudes—we join all creation in doing what God made us to do.
